

# System-of-Systems

*Part 1: Standardisation*

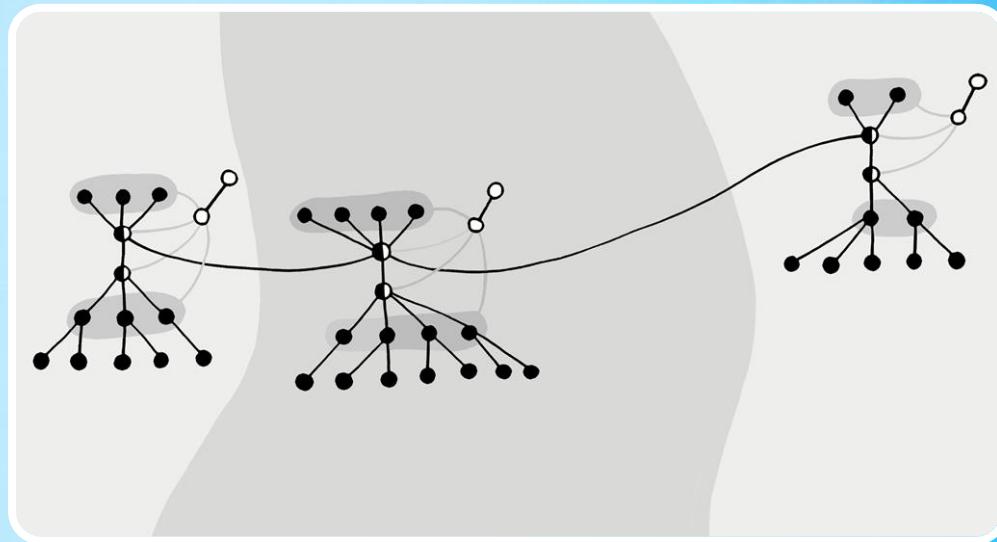

**Prof.dr.ir. M.P.C. Weijnen**

Professor, Faculty of TPM, TU Delft

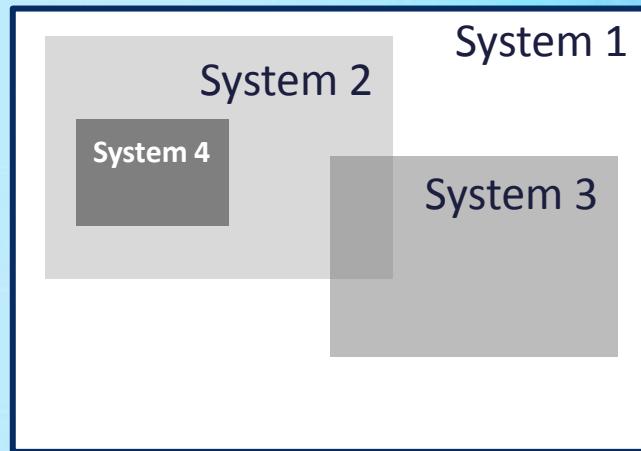

# Large Scale Infrastructures

*Infrastructures cross national  
and regional borders*

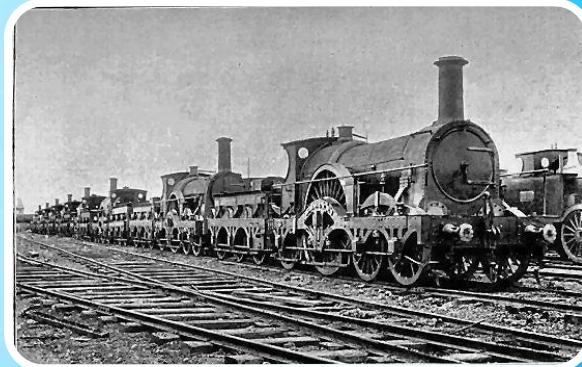

# Large Scale Infrastructures

## *System-of-Systems*

# Railway Time

# Standardisation

- Standardisation is key
- Prerequisite continental and global infrastructure

# Standardisation

Crossing the border China-Macau, switching lanes

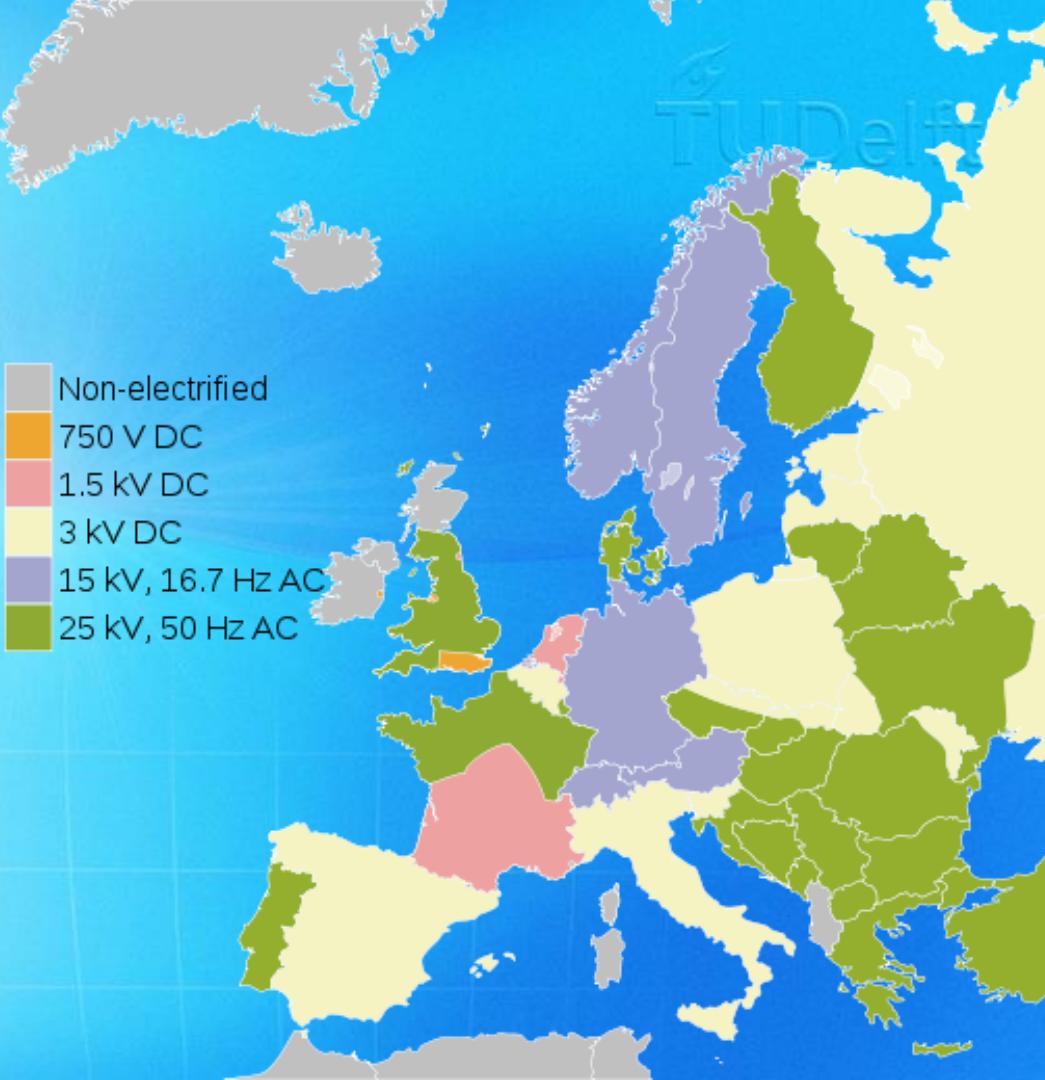

# Different standards: railway gauges

Example: Australia

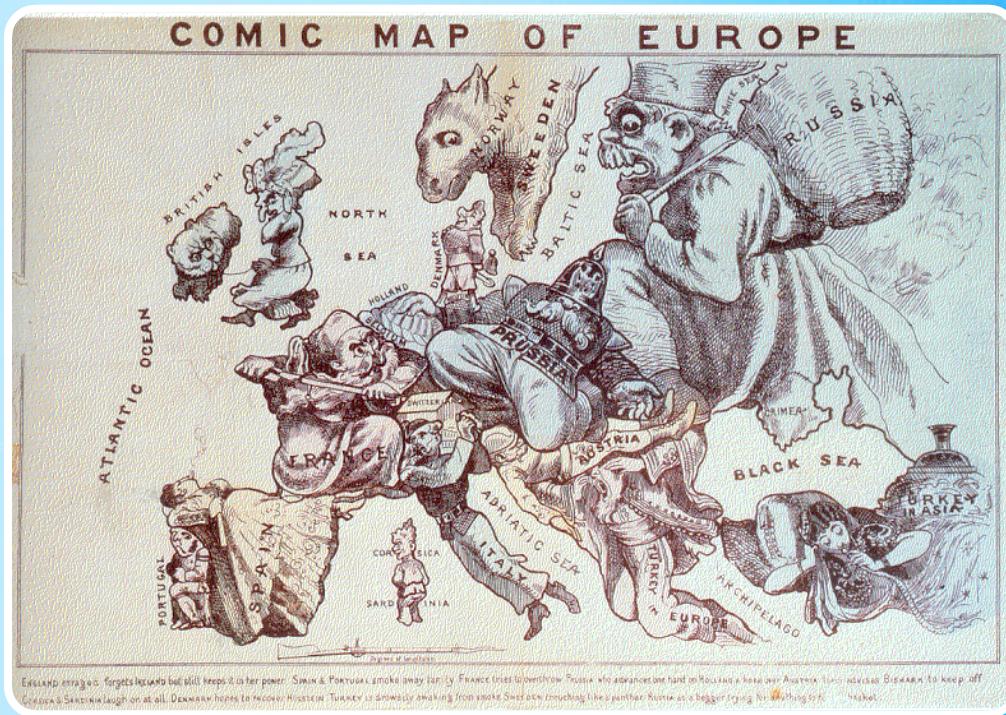

# Different standards: railway electrification in Europe

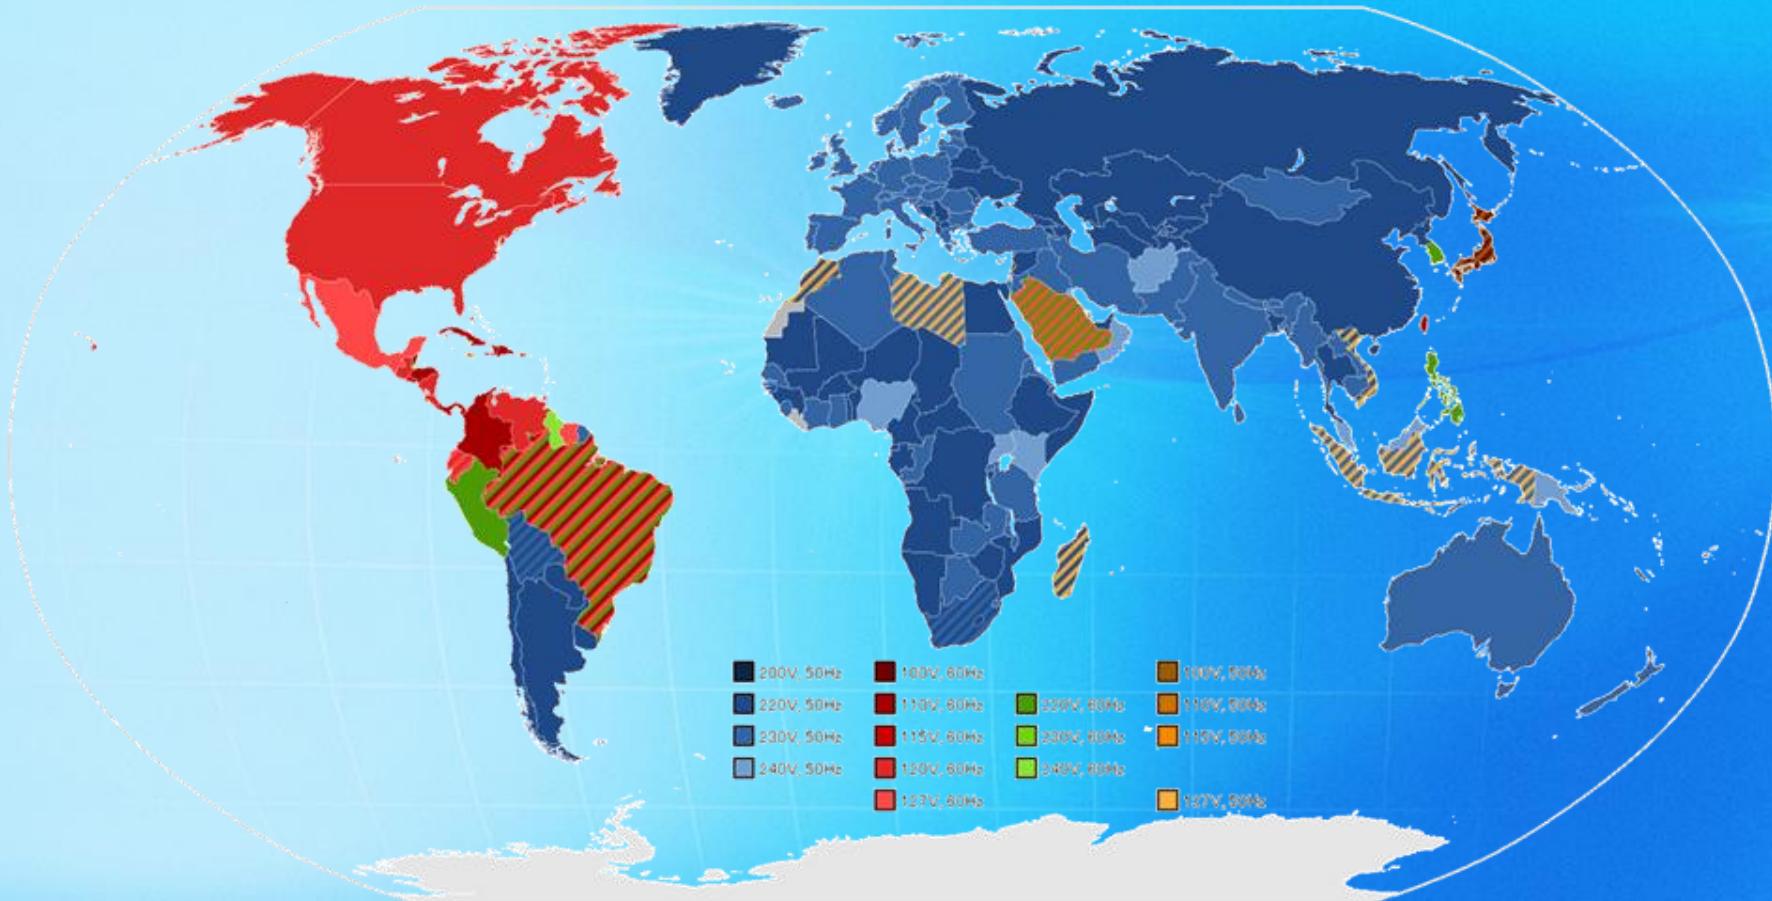

# Different standards: gas quality

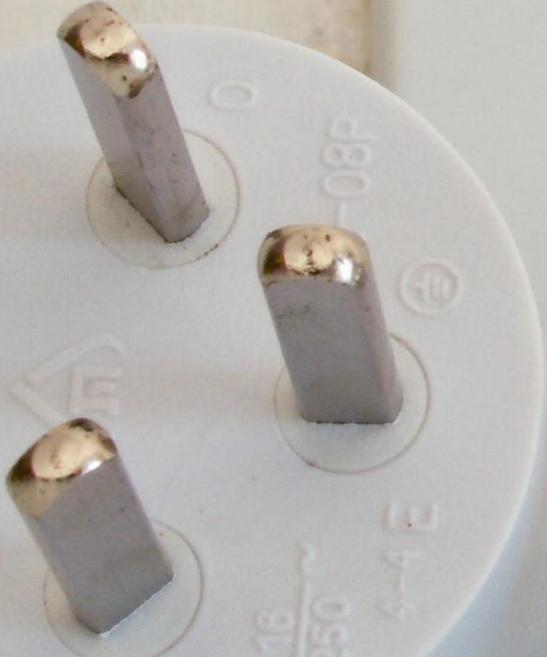

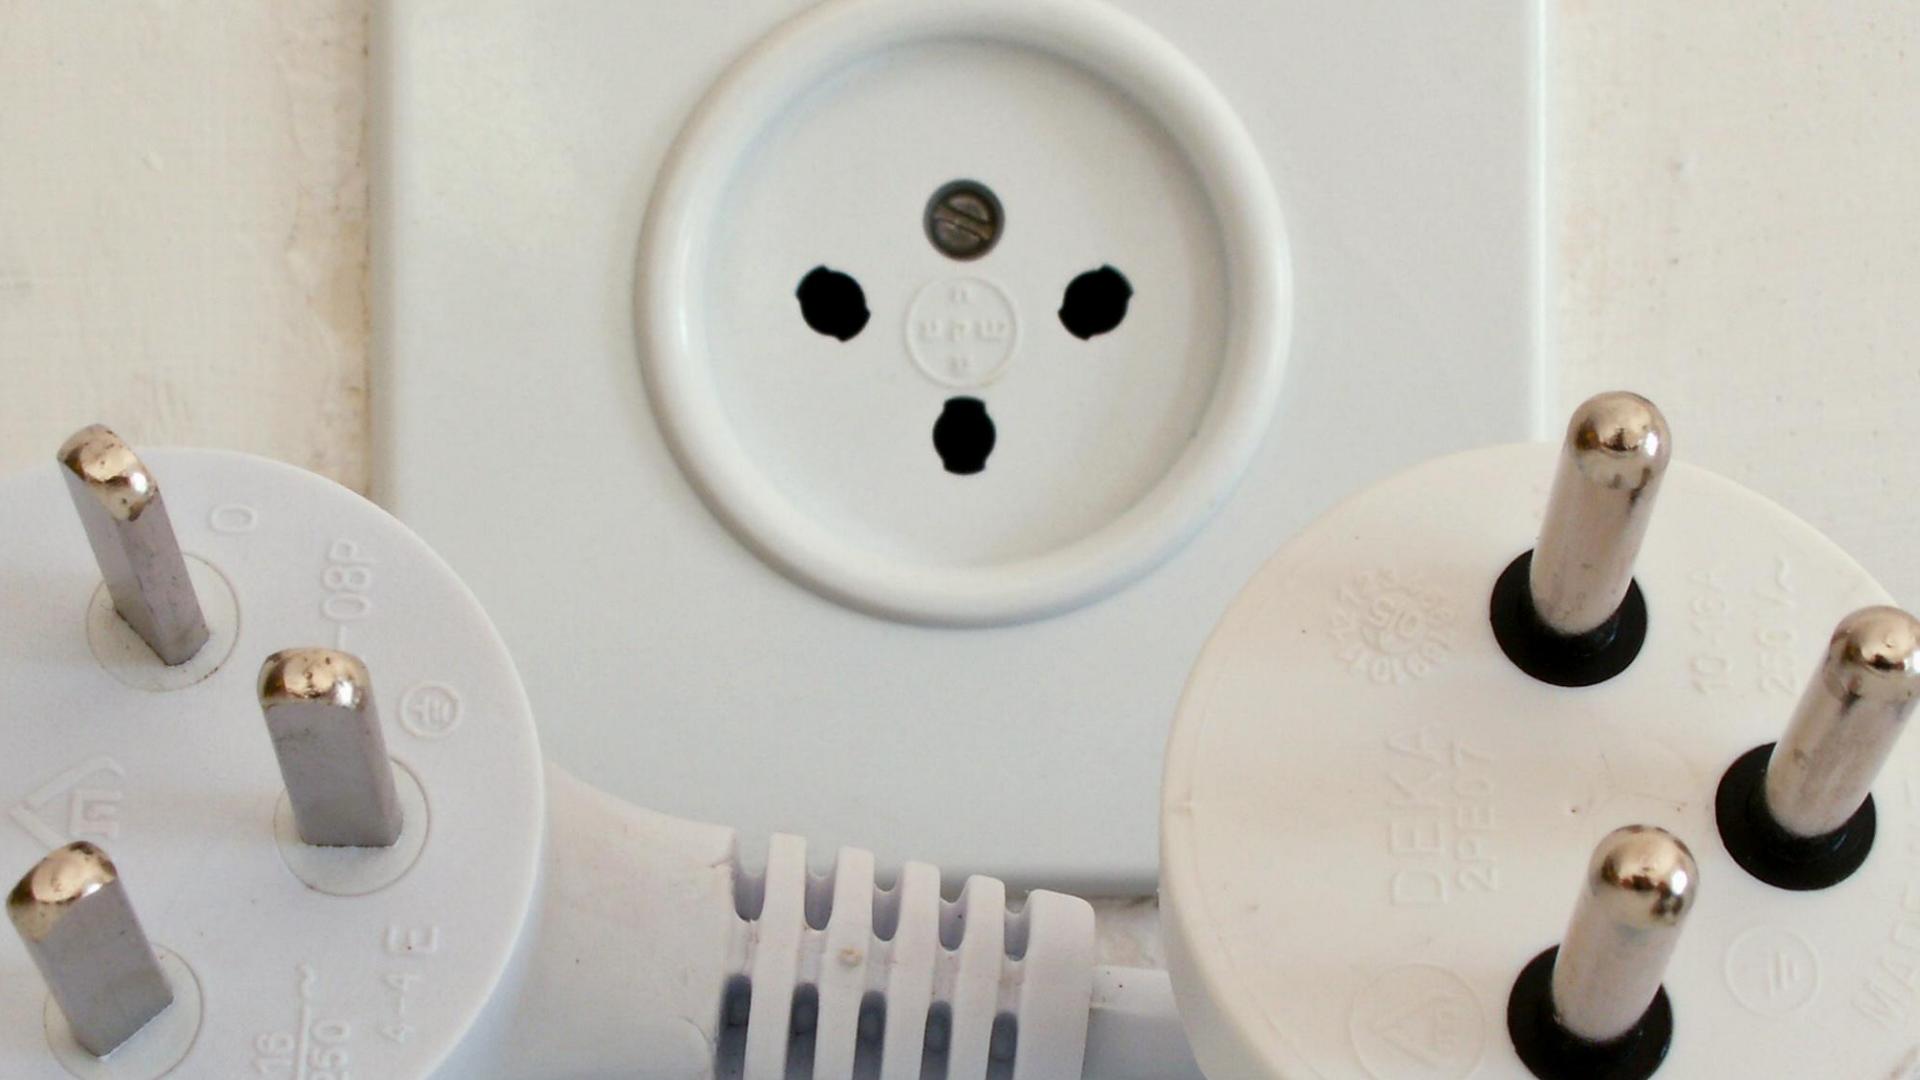

# Standardisation: political fight between technical experts

# Different standards: electricity infrastructure

# Thank you for your attention!

Please post any questions you may have on  
our discussion forum.
