Additional Python Resources

If you're having trouble with a particular concept or simply want to have access to more information, try one of the following links.

**Documentation**
- [Official Python 2.7 Documentation](#) - "official"/technical explanation of what a particular function/operator does, examples of correct syntax, what the various libraries are, etc.

**Textbooks/Tutorials**
- [Dive Into Python](#) - another survey of Python syntax, datatypes, etc.
- [Think Python by Allen Downey](#) - a good general overview of the Python language. Includes exercises.
- [The Official Python Tutorial](#) - self-explanatory
- [Learning Python the Hard Way](#) - another free online text
- [Reserved Keywords in Python](#) - don't use these as variable names
- [PEP 8 - Style Guide for Python Code](#) - learn what is good and bad style in Python
- [CheckIO](#) - learn Python by exploring a game world
- [Invent with Python](#) - develop your Python skills by making games or hacking ciphers
- [Codecademy](#) - learn Python by building web apps and manipulating data; interactive tutorial sequence
- [Wikiversity](#) - a series of lessons
- [Python Tutorial](#) - from the Python.org
- [Python Tutor](#) - interactive tutorial sequence of exercises

**Debugging**
- [Python Tutor](#) - an excellent way to actually visualize how the interpreter actually reads and executes your code
- [DiffChecker](#) - compares two sets of text and shows you which lines are different
- [Debugging in Python](#) - steps you can take to try to debug your program

**Software**
- [Python Tools for Visual Studio](#) - Visual Studio plug-in enabling Python programming

**Other Q&A**
- [Stack Overflow](#) - a large Q&A forum for programming concepts (not just Python). Try searching here before you post on the edX forum, and you may find that someone has already answered your question.

**More practice problems**
- [Python Challenge](#) - a series of puzzles you can try to test your Python abilities
- [Project Euler](#) - additional programming challenges you can try once your Python knowledge becomes stronger; problems are sorted by increasing difficulty
- [Coding Bat](#) - problems you can solve within an online interpreter
- [Codewars](#) - improve your skills by training on real code challenges
