

# GRADING POLICY

## PASSING

This course is graded as pass/fail, meaning you will either be given a passing score or a failing score.

➔ **The score required to pass this course is 70%.**

## YOU ARE GRADED ON...

### MODULE EXERCISES

At the end of each module, in the "Conclusion" sections, there is a small handful of questions. These are designed to assess your progress in the course, module after module. Questions are in the form of multiple choice, checkbox or text input problems.

➔ **Module exercises count towards 72% of the grade.**

### FINAL EXAM

The final exam becomes available at the release of Module 5 (last module). The final exam consists of questions (multiple choice, checkbox or text input problems) covering the entirety of the course.

➔ **The final exam counts towards 28% of the grade.**

## YOU *ARE NOT* GRADED ON...

There are *activities* and *projects* throughout the course. These are to help you practice what you have learnt.

LENGTH: 5 weeks

LEVEL: Introductory

EFFORT: 5-7 hours per week

INSTITUTION: W3Cx
