

Hi, I'm Justin Reich.

And I'm an assistant professor in the Comparative Media Studies/Writing Department at the Massachusetts Institute of Technology.

We're glad that you were inspired by XQ, and thrilled that you're interested in reimagining high school.

I'm excited to welcome you to launching innovation in schools.

Together we'll embark on a cycle of study, experimentation, and reflection, in service of leading and supporting meaningful change in education.
